

Call for Sponsors: IWOMP and OpenMPCon 2020

September 21-25, 2020 | Texas Advanced Computing Center (TACC)

GET INVOLVED! Help Shape the OpenMP Community!

The International Workshop on OpenMP (IWOMP) and OpenMPCon are the premier conferences that spotlight new and original work in the community of OpenMP users and developers.

The week-long event begins with two days of OpenMPCon, followed by a day of Tutorials, and two days of IWOMP. OpenMP users, program developers and implementers often attend multiple events to network, exchange experiences, learn about new features and the direction of OpenMP, the *de facto* standard for threaded parallel programming which also supports portable directives for vector execution and offloading to devices.

These back-to-back conferences attract a diverse group of attendees that use a wide variety of platforms and toolsets. Your sponsorship will promote your organization, and will also help keep OpenMP accessible to the widest possible audience.

EuroMPI/USA'20 is collocated with OpenMP this year!

Conferences at a Glance

OpenMPCon Tutorial IWOMP

DATES

Sep 21-22 Sep 23 Sep 24-25

LOCATION

@TACC, Univ. of Texas, Austin TX
